RE: Phase I Environmental Site Assessment Findings Report
Former Dollar General
1101 North Illinois Street
Harrisburg, Arkansas 72432
CEA Project No. L2521

Greetings:

Commonwealth Environmental Associates, Inc. (CEA) is pleased to submit this Phase I Environmental Site Assessment (ESA) Findings report for the above referenced project. These services have been performed in accordance with your request and our standard terms and limitations. The contents of this report or performance of this study should not be construed as CEA's recommendation to either, purchase, finance, sell or develop the property.

CEA appreciates the opportunity to work with you as your environmental consultant on this project. Please do not hesitate to contact us if you have any questions concerning the report or any aspect of the project.

Sincerely,

COMMONWEALTH ENVIRONMENTAL ASSOCIATES, INC.

1.0 EXECUTIVE SUMMARY

Based upon the results of studies performed to date, which included a review of readily available public records as well as a site reconnaissance visit by senior level personnel, the following is a summary of key findings and comments:

- The subject site is identified as the former Dollar General located at 1101 North Illinois Street in Harrisburg, Poinsett County, Arkansas. The geographical location of the site is approximately 35.57585° north latitude and -90.72432° west longitude. A vacant structure formerly utilized as a Dollar General is located on the parcel. An asphalt parking area is located to the adjacent east of the site structure. Municipal water and sewer utilities service the subject site. Additionally, natural gas is connected to the site structure.
- Based on information collected during this study including interviews and review of readily available historical maps and records, the subject property was undeveloped prior to the construction of the Dollar General in 1995.
- A review of available federal, state and local regulatory information did not indicate the subject site on the tracked regulated site inventories including Comprehensive Environmental Response, Compensation, and Liability Information System (CERCLIS), National Priorities List (NPL), Leaking Underground Storage Tanks (LUST), the Toxic Release Inventory (TRI) program, and the registered Underground Storage Tank (UST) list.
- The Phase I ESA completed in association with the property located at 1101 North Illinois Street in Harrisburg, Arkansas revealed no evidence of Recognized Environmental Conditions (RECs).

2.0 OBJECTIVES

2.1 Purpose and Scope

The purpose of this Phase I ESA was to expend reasonable effort to identify environmental considerations related to the subject site. More specifically, the purpose of the ESA is to identify RECs per ASTM Standard 1527-13.

2.2 Definition

A “recognized environmental condition” is defined within the ASTM Standard 1527-13 as the presence or likely presence of any hazardous substances or petroleum products on a property under conditions that indicate an existing release, a past release, or a material threat of a release of any hazardous substances or petroleum products into structures on the property or into the ground, ground water, or surface water of the property. The term includes hazardous substances or petroleum products even under conditions in compliance with laws. The term is not intended to include de minimis conditions that generally do not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies. Conditions determined to be de minimis are not recognized environmental conditions.

2.3 Process

Our services addressing an assessment of the subject site identified as the former Dollar General located at 1101 North Illinois Street in Harrisburg, Arkansas included:

- A review of readily available federal, state and local environmental databases to determine if the subject site or adjacent sites are indicated as having violations to any existing regulatory laws.
- A review of readily available aerial photographs and Sanborn Maps for significant site usages or development history.
- A site walkover and area reconnaissance, conducted by senior level personnel, to determine if environmental concerns were evident at the subject site or adjacent parcels.
- Interviews with individuals familiar with the site concerning the subject site and adjacent properties, if available.

2.4 Limitations

These services have been performed for the exclusive use of O'Reilly Automotive Stores, Inc. or their agents or lenders pursuant to our contract terms. These services have been performed in accordance with generally accepted environmental practices. No other warranty expressed or implied is made. Our conclusions and recommendations are based upon information provided to us by others and our site observations. Our observations are based upon conditions readily visible at the site at the time of the site visit. However, the site observations are not intended to address specific subsurface soil and groundwater conditions, which can only be determined by performing a detailed program.

The contents of this report or performance of this study should not be construed as CEA's recommendation to either, purchase, sell or develop the subject property. The following services were not included in this phase of the project: surveying for line and grade, quantity and cost estimates, building and/or structural representation, detailed plans and specifications, waste characterization and treatment schemes, radon surveys, soil and water sampling, wetlands assessments, attendance at meeting or services not specifically defined herein.

3.0 SITE OVERVIEW

3.1 Site Description / Uses

The subject site is identified as the former Dollar General located at 1101 North Illinois Street in Harrisburg, Poinsett County, Arkansas. The geographical location of the site is approximately 35.57585° north latitude and -90.72432° west longitude. A vacant structure formerly utilized as a Dollar General is located on the parcel. An asphalt parking area is located to the adjacent east of the site structure. Municipal water and sewer utilities service the subject site. Additionally, natural gas is connected to the site structure.

North Illinois Street (Arkansas Route 1) bounds the site to the east. Unico Bank is located across North Illinois Street to the east. Harrisburg Veterinary Clinic bounds the site to the north. Leonard Agency Insurance is located to the south. Residential properties bound the subject site to the west. A Site Vicinity Map is presented as Appendix 1, Figure 1. A General Site Map is included as Appendix 1, Figure 2.

3.2 Property Size

According to City of Harrisburg property assessment documentation, the subject site is identified as Parcel 111-01369-0000 and measures 0.65 acres. The site structure is listed as 7,500 square feet with a construction date of 1995. The property card acquired by CEA is presented in Appendix 2.

3.3 Zoning

According to information obtained from the City Mayor, the subject site is zoned C-2, Commercial.

4.0 SITE BACKGROUND/OPERATING HISTORY

4.1 Current/Historical Ownership Information

The current owner of the property is listed as the City of Harrisburg. Previous owners include Eighty-Two LLC, Garner Rentals, Garner 19A, Garner 46A, and Jones. No previous owners of environmental concern were noted within the historical ownership research.

4.2 Aerial Photographs

Available photographs of the subject site were reviewed by CEA during this study. The obtained photographs were dated 1974, 1985, 1994, 2001, 2006, 2013, and 2019. A summary of the reviewed photographs is presented below. The photographs are presented as Appendix 3.

<u>Year</u>	<u>Description</u>
1974 - 1985	The subject parcel and adjacent parcels appear to be undeveloped. A residential property is located farther to the south.
1994	The subject parcel and adjacent parcels are undeveloped. Residential properties are located farther to the south and southwest.
2001	The subject parcel contains the current site structure. A commercial structure is located to the adjacent north. Residential structures are located to the adjacent west. The parcels to the south and across North Illinois Street to the east are undeveloped.
2006 - 2019	The subject parcel contains the current site structure. Commercial structures are located to the adjacent north and south. Residential structures are located to the adjacent west. A commercial structure is located across North Illinois Street to the east.

4.3 Historical City Directories/Fire Insurance Maps/Historical Topographical Maps

4.3.1 City Directories

Due to the COVID-19 public health pandemic, access to historical city directories via the Poinsett County library was not possible. Based on interviews, the subject site was undeveloped prior to the Dollar General in 1995.

4.3.2 *Fire Insurance Map*

CEA reviewed available fire insurance maps for Harrisburg, Arkansas via the Library of Congress. The subject property was not identified on the reviewed maps.

4.3.3 *Topographical Maps*

CEA personnel reviewed readily available historical topographical maps as documented by the United States Geological Survey (USGS) for the subject site. The reviewed maps were dated 1942, 1958, 1983, and 2020. No structures were depicted on the subject site within the 1942 – 1983 reviewed maps. Due to development density, the 2020 topographic map series does not include structures. Topographic relief appears to extend slightly to the southwest. The maps are presented as Appendix 8.

4.4 Owner / Other Party Interviews

CEA interviewed the property owner, regulatory and other readily accessible parties toward the completion of this report in general accordance with the ASTM guidance. The personnel interviewed are summarized within Appendix 5.

4.5 Historical Recognized Environmental Conditions (HREC)

An HREC is defined within the ASTM Environmental Site Assessments: Phase I Environmental Site Assessment Process Standard E 1527 - 13 as a condition by which in the past would have been considered a recognized environmental condition, but which may or may not be considered a recognized condition currently. This may be a known issue such as a past release of any hazardous substances or petroleum products that has been addressed or remediated per pertinent regulations and to which the corrective action has been accepted by the responsible regulatory agency. An HREC was not identified for the subject property.

4.6 Controlled Recognized Environmental Conditions (CREC)

A CREC is defined within the ASTM Environmental Site Assessments: Phase I Environmental Site Assessment Process Standard E 1527 - 13 as “a REC resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority (e.g., as evidenced by the issuance of a NFA letter or equivalent, or meeting risk-based criteria established by regulatory authority), with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (e.g., property use restrictions, AULs, institutional controls, or engineering controls). A condition considered by an environmental professional to be a CREC shall be listed in the Findings Section of the Phase I ESA report, and as a REC in the Conclusions Section of the Phase I ESA report.” No CRECs were noted for the property.

4.7 List / Summary of Reviewed Previously Prepared Reports

No previously prepared reports were reviewed by CEA personnel during this investigation.

5.0 ASTM USER PROVIDED INFORMATION

In order to qualify for one of the Landowner Liability Protections offered by the Small Business Liability and Brownfields Revitalization Act of 2001, the user must provide the following information as available. Failure to provide this information may result in a determination that “all appropriate inquiry” is not complete. The completed questionnaire is presented as Appendix 9.

5.1 Title Records

The client provided the property deed, current owner, and owner contact information.

5.2 Environmental Liens or Activity Use Limitations

The client was unaware of any environmental liens or use restrictions.

5.3 Specialized Knowledge

The client indicated a former Dollar General was present on site.

5.4 Commonly Known or Reasonably Ascertainable Information

The client was unaware of any past uses or adverse environmental conditions associated with the subject site.

5.5 Valuation Reduction for Environmental Issues

The client indicated that the purchase price is at fair market value.

5.6 Owner, Property Manager and Occupant Information

The client provided CEA with the current owner's contact information.

5.7 Reason for Performing the Phase I ESA

The client indicated that the Phase I ESA was being completed as a part of due diligence for a potential real estate transaction.

6.0 ENVIRONMENTAL SETTING

6.1 Soils Conditions

The United States Department of Agriculture (USDA) Soil Conservation Service (SCS) maps the subject property as Collins. These soils are described as moderately well drained silt loams. The depth to groundwater is expected to be greater than 80 inches. The soils are not considered hydric.

6.2 Surface Water Conditions

No surface water features were noted on the subject site. According to the Federal Emergency Management Agency's Flood Maps, the subject site is not located within the 100-Year or 500-Year Flood Plain. The National Wetland Inventory map does not identify wetlands on the subject property.

6.3 Groundwater Conditions

Per USDS SCS information, the depth to groundwater would be expected to be greater than 80 inches. Groundwater flow direction would be expected to mimic surface topography and flow to the southwest.

7.0 SITE RECONNAISSANCE

A site reconnaissance of the subject site was performed on February 10, 2021 by CEA personnel. The intent of this service was to assist in identifying potential adverse environmental activities which were currently or previously conducted on the subject site or on adjacent parcels. A General Site Map (Appendix 1) presents general characteristics of the subject site. The site photographs and their descriptions are included as Appendix 6. Interviews with people familiar with the subject site offer additional information presented in Appendix 5.

The subject site is identified as the former Dollar General located at 1101 North Illinois Street in Harrisburg, Poinsett County, Arkansas. The geographical location of the site is approximately 35.57585° north latitude and -90.72432° west longitude. A vacant structure formerly utilized as a Dollar General is located on the parcel. An asphalt parking area is located to the adjacent east of the site structure. Municipal water and sewer utilities service the subject site. Additionally, natural gas is connected to the site structure.

North Illinois Street (Arkansas Route 1) bounds the site to the east. Unico Bank is located across North Illinois Street to the east. Harrisburg Veterinary Clinic bounds the site to the north. Leonard Agency Insurance is located to the south. Residential properties bound the subject site to the west. CEA personnel reviewed the interior of the site structure.

The structure was noted to be a vacant Dollar General store. Potential Asbestos Containing Materials (ACM) were noted in association with the structure. An Asbestos Survey was completed and is provided under separate cover.

No evidence of USTs, including vent or fill piping, was noted on the subject site. Four (4) pole-mounted electrical transformers were noted along the property boundaries. No labels or signs of leakage were visible in association with the transformers.

The site reconnaissance of the subject site performed on February 10, 2021 revealed property with no obvious visual evidence of adverse environmental conditions. Additionally, no potential adverse environmental activities or conditions were noted in association with the adjacent properties.

8.0 ENVIRONMENTAL/REGULATORY AGENCY INQUIRIES

8.1 Federal Regulatory Considerations

As part of this study, a review of federal agency records was conducted. Due to the time frame required, this work was subcontracted to Envirosite. The report generated is included in Appendix 4. CEA did not locate any regulatory files for the subject or adjoining properties. It should be noted that CEA was unable to plot or locate all the listed orphan sites, but do not believe any of the listed sites are located within the vicinity of the subject site.

8.1.1 NPL - National Priorities List (Superfund)

The NPL is a subset of the Superfund Enterprise Management System (SEMS), formerly known as CERCLIS, and identifies more than 1,200 sites for a priority cleanup under the Superfund Program. Sites are added from the SEMS list per a hazard ranking system which seeks to identify high priority sites. The review of information on NPL indicated no listed sites within a 1.0-mile radius of the subject site.

8.1.2 Superfund Enterprises Management System (SEMS)– formerly CERCLIS

The SEMS list, formerly known as the CERCLIS, contains information more than 34,000 sites identified by the EPA as abandoned, inactive or uncontrolled hazardous waste sites which may require a cleanup. The review of information on SEMS indicated no reported sites within a 1.0-mile radius of the subject site.

8.1.3 TRI - Toxic Release Inventory

TRI includes all facilities which release any toxic chemical in reportable quantities to the air, water or land as required under Superfund Amendments and Reauthorization Act of 1986 (SARA), Title III, Section 313. Reporting covers approximately 20,000 sites and is required (Form R) each July 1st for the previous year. The review of information reported on the TRIS did not reveal the subject site.

8.1.4 RCRIS - Resource Conservation and Recovery Information System

RCRIS includes selective information on more than 324,000 sites pertaining to hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). RCRIS is divided into these categories:

8.1.4A RCRIS-TS - Treatment, Storage, or Disposal Facilities

RCRIS-TS contains information pertaining to those facilities that either treat, store or dispose of hazardous waste. Review of this documentation revealed no facilities listed within the subject vicinity as treating and/or disposing of hazardous waste.

8.1.4B RCRIS-LG - Large Quantity Generators

RCRIS-LG contains information pertaining to facilities that either generate more than 1000 kg. of hazardous waste per month or meet other applicable requirements of the Resource Conservation and Recovery Act. Review of these documents did not reveal any sites within a 1.0-mile radius of the subject site.

8.1.4C RCRIS-SG - Small Quantity Generators

RCRIS-SG contains information pertaining to facilities that either generate between 100 kilograms (kg) and 1,000 kg of hazardous waste per month or meet other applicable requirements of the RCRA. Review of this documentation revealed no listed facilities within a 0.25-mile radius of the subject site. Additionally, no facilities were identified as a Conditionally Exempt RCRA Generators or Very Small Quantity Generators (VSQG).

8.1.5 U.S. Brownfields

The U.S. Brownfields includes a list of properties and activities performed by the Environmental Protection Agency (EPA). There are no listed sites within a 1.0-mile radius of the subject property.

8.2 State Regulatory Considerations

As part of this study, a review of state agency records was conducted. CEA sub-contracted this work to EnviroSite. Additionally, CEA forwarded a Freedom of Information Act (FOIA) to the Arkansas Department of Energy and Environment.

8.2.1 UST – Registered Underground Storage Tank Lists

UST records contain an inventory of registered underground storage tanks per RCRA regulations. Review of the ERIS documentation identified two (2) sites within a 0.25-mile radius of the subject site. The sites are identified as Carwell Elevator Company and Harrisburg Water & Gas Warehouse. No violations were discovered in association with the listings. No impact to the subject site would be expected from these two (2) facilities.

8.2.2 LUST - Leaking Underground Storage Tank Incident Reports

LUST records contain an inventory of reported leaking tank incidents. Review of Envirosearch documentation revealed no LUST sites within a 0.5-mile radius of the subject site.

8.3 Other Local Regulatory Considerations

As part of this study, a review of state agency records was conducted. Due to time constraints, this work was subcontracted to Envirosearch. The report generated is included in Appendix 4.

8.3.1 AST – Registered Aboveground Storage Tank Lists

AST records contain an inventory of registered ASTs per RCRA regulations. Review of the Envirosearch documentation listed no AST facilities within a 0.25-mile radius of the subject site.

8.3.2 Spills – Incident Management Databases

The Incident Management Database contains documented spills within a 0.25-mile radius. Review of the Envirosearch documentation listed no spill incidents in the area.

8.3.3 VCP – Voluntary Cleanup Program

The VCP database contains a collection of voluntarily enrolled sites that have been cleaned or are in the process of remediation for reuse and redevelopment. Review of the Envirosearch documentation listed no VCP facilities within a 0.5-mile radius of the subject site.

8.3.4 Drycleaner Facilities

No current or historic drycleaner facilities were listed within the Environmental Protection Agency (EPA) database within a 0.25-mile radius of the subject site.

9.0 ADDITIONAL ENVIRONMENTAL INFORMATION SUMMARY

9.1 Asbestos

An Asbestos Survey Report is provided under separate cover.

9.2 Hazardous Materials

The February 10, 2021 review of the subject property did not reveal any visual evidence of the bulk storage or release of hazardous materials.

9.3 Storage Tanks

No evidence of USTs, including vent or fill piping, was noted on the subject site.

9.4 Lead-Based Paint

A lead-based paint inspection was not completed as part of this investigation.

9.5 Drinking Water Supply Source

A connection to a municipal water system is readily available at the subject property.

9.6 Polychlorinated biphenyls (PCBs)

Four (4) pole-mounted electrical transformers are located along the property boundaries. No labeling was visible in association with the transformers. No signs of leakage were observed in the areas. Multiple fluorescent lights were noted within the site structure. No obviously damaged bulbs or ballasts were observed within the former store.

9.7 History of Property Use

Based on information collected during this study including interviews and review of readily available historical maps and records, the subject site was undeveloped prior to the construction of the Dollar General in 1995.

9.8 Neighborhood Hazardous Waste Activities

The February 10, 2021 review of the subject site revealed no evidence of onsite impact from offsite issues.

9.9 Unusual Odors

No unusual or obvious odors were noted in the areas inspected by CEA environmental personnel during the February 10, 2021 site visit.

9.10 Adjoining Property Use Summary

North Illinois Street (Arkansas Route 1) bounds the site to the east. Unico Bank is located across North Illinois Street to the east. Harrisburg Veterinary Clinic bounds the site to the north. Leonard Agency Insurance is located to the south. Residential properties bound the subject site to the west. Per interviews with the current owner representative, the subject site and adjacent sites were agricultural prior to development.

9.11 Vapor Encroachment Review

A reconnaissance of the general area surrounding the subject site identified no potential vapor encroachment concerns. Based on the currently available information, CEA does not believe a physical vapor encroachment investigation is necessary at this time.

9.12 Mold

An investigation for mold was not completed as part of this study.

9.13 Radon

The subject site is located within Poinsett County which is located in U.S. EPA Radon Zone 3. The counties within this zone will have a predicted average indoor radon screening less than 2.0 picocuries per liter (pCi/L). A radon study was not completed as part of this investigation.

10.0 CONCLUSIONS AND RECOMMENDATIONS

The ESA of the subject site identified as the former Dollar General located at 1101 North Illinois Street in Harrisburg, Arkansas was completed on February 19, 2021. CEA, Inc. performed a Phase I ESA in conformance with the scope and limitations of ASTM Standard E 1527-13. Any exceptions to, or deletions from, this practice is described in Section 11.0 of this report. This assessment has revealed no evidence of RECs in connection with the subject site.

11.0 DEVIATIONS FROM ASTM STANDARD E 1527

CEA prepared this report in general conformance with the ASTM Standard E 1527-13.

12.0 ENVIRONMENTAL PERSONNEL INFORMATION

The following environmental personnel conducted the environmental site assessment at the subject site.

We declare that, to the best of our professional knowledge and belief, we meet the definition of Environmental professional as defined in 312.10 of 40 CFR 213. We have the specific qualifications based on education, training and experience to assess a property of the nature, history and setting of the subject property. We have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

Joshua B. Seaman, Environmental Project Engineer, has more than 14 years of experience completing Phase I and II ESAs. Mr. Seaman has been with CEA since January 2010.

W. Fred Mayes, Environmental Scientist, Principal, has more than 28 years of experience completing Phase I and II ESAs, Asbestos Surveys and UST assessments and remediation. Mr. Mayes has been with CEA for 27 years. Mr. Mayes is an US EPA certified asbestos building inspector licensed in multiple states.

HYDROLOGIC UNIT

Hydrologic Unit Maps

USGS

The United States Geological Survey created a hierarchical system of hydrologic units originally called regions, sub-regions, accounting units, and cataloging units. Each unit was assigned a unique Hydrologic Unit Code (HUC). As first implemented the system had 21 regions, 221 subregions, 378 accounting units, and 2,264 cataloging units. Over time the system was changed and expanded. As of 2010 there are six levels in the hierarchy, represented by hydrologic unit codes from 2 to 12 digits long, called regions, subregions, basins, subbasins, watersheds, and subwatersheds. The table below describes the system's hydrologic unit levels and their characteristics, along with example names and codes.

APPENDIX 5

FIELD INTERVIEWS

Field Interviews

Individuals familiar with the site were contacted for additional information on the site and its past usages.

Justin Kimble – City of Harrisburg Mayor

CEA met with Mayor Justin Kimble at the subject site on February 10, 2021. Mr. Kimble indicated that the subject site was undeveloped prior to the construction of the Dollar General. He noted that the subject site and adjacent sites were previously agricultural. Mr. Kimble indicated that he was not aware of any environmental concerns like underground storage tanks or petroleum and chemical spills associated with the property. Mayor Kimble indicated that the subject site is zoned C-2.

Mark Morgan – Halsey Thrasher Harpole Real Estate

CEA met Mr. Mark Morgan at the subject site on February 10, 2021. Mr. Morgan provided access to the interior of the structure. He indicated that the City of Harrisburg purchased the property in anticipation of utilizing the structure but later acquired another property.

Arkansas Department of Energy and Environment

CEA forwarded a Freedom of Information Act (FOIA) request to the Arkansas Department of Energy and Environment for any files related to the subject site. No files were provided associated with the request.

City of Harrisburg / Poinsett County

CEA obtained the current property card from Poinsett County / City of Harrisburg Assessor's Office. The property is identified as Parcel 111-01369-0000 and measures 0.65 acres.

ASTM QUESTIONNAIRE

ASTM User Questionnaire

In order to qualify for one of the Landowner Liability Protections offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001, the user must provide the following information (if available) to the environmental professional. Failure to provide this information could result in a determination that “all appropriate inquiry” is not complete.

(1.) Environmental cleanup liens that are filed or recorded against the site (40 CFR 312.25). Are you aware of any environmental cleanup liens against the *property* that are filed or recorded under federal, tribal, state or local law? **No.**

(2.) Activity and land use limitations that are in place on the site that are in place on the site or that have been filed or recorded in a registry (40 CFR 312.26).

Are you aware of any AULs, such as *engineering controls*, land restrictions or *institutional controls* that are in place at the site and/or have been filed or recorded in a registry under federal, tribal, state or local law? **No.**

(3.) Specialized knowledge or experience of the person seeking to qualify for the LLP (40 CFR 312.28).

As the *user* of this *ESA* do you have any specialized knowledge or experience related to the *property* or nearby properties? For example are you involved in the same line of business as the current or former *occupants* of the *property* or an adjoining *property* so that you would have specialized knowledge of the chemicals and processes used in this type of business? **No.**

(4.) Relationship of the purchase price to the fair market value of the property if it were not contaminated (40 CFR 312.29).

Does the purchase price being paid for this property reasonably reflect the fair market value of the *property*? **Yes.** If you conclude that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the property? **N/A**

(5.) Commonly known or reasonably ascertainable information about the property (40 CFR 312.30).

Are you aware of commonly known or reasonably ascertainable information about the property that would help the environmental professional to identify conditions indicative of releases or threatened releases? For example, as user,

(a.) Do you know of any past uses of the *property*? **No.**

(b.) Do you know of any specific chemicals that are present or once were present at the *property*? **No.**

(c.) Do you know of spills or chemical releases that have taken place at the *property*? **No.**

(d.) Do you know of any environmental cleanups that have taken place at the *property*? **No.**

(6.) The degree of obviousness of the presence of likely presence of contamination at the property, and the ability to detect the contamination by appropriate investigation (40 CFR 312.31).

As the *user* of this *ESA*, based on your knowledge and experience related to the *property* are there any obvious indicators that point to the presence or likely presence of contamination at the *property*? **No.**

X3.1 In addition, certain information should be collected, if available, and provided to the *environmental professional* selected to conduct the Phase I. This information is intended to assist the *environmental professional* but is not necessarily required to qualify for one of the LLPs.

This information includes:

- (a) the reason why the Phase I is required. **Due diligence**
- (b) the type of *property* and type of *property* transaction, for example, sale, purchase, exchange, etc. **Building Purchase of vacant former Dollar General building.**
- (c) the complete and correct address for the *property* (a map or other documentation showing *property* location and boundaries is helpful), **previously provided**
- (d) the scope of services desired for the Phase I (including whether any parties to the *property* transaction may have a required standard scope of services on whether any considerations beyond the requirements of Practice E 1527 are to be considered), **previously provided**
- (e) identification of all parties who will rely on the Phase I *report*, **O'Reilly Automotive Stores, Inc.**
- (f) identification of the site contact and how the contact can be reached, **previously provided**
- (g) any special terms and conditions which must be agreed upon by the *environmental professional*, and **No.**
- (h) any other knowledge or experience with the property that may be pertinent to the *environmental professional* (for example, copies of any available prior *environmental site assessment reports*, documents, correspondence, etc., concerning the *property* and its environmental condition.) **N/A**
