

ADDENDUM NO. 1  
TO  
4-BAY BOX HANGAR & ACCESS APRON  
BATESVILLE REGIONAL AIRPORT  
BATESVILLE, ARKANSAS  
M-N 23-095

June 18, 2024

The following revision shall be made to the plans and specifications and become a part thereof:

1. The hangar shall be insulated in the exterior walls, roof and bi-fold door. Insulation not required in the interior partition walls. Insulation shall be standard 3" metal building insulation with vinyl backing. Insulation in the roof shall be provided with chicken wire with 1" mesh.
